

High Performance Sport Training

Mission Statement

The mission of our Association is to establish a high performance, multi-sport International Olympic Training Centre in the Principality of Monaco.

Our mission extends Monaco's vast support of professional and amateur sports, and the Olympic Games: to create a world-class training centre in one of the fastest growing sporting communities in the world.

The Centre will contribute to the community, economy, image and heritage of Monaco; and will further identify the Principality with Olympic Ideals.

Existing Facilities

- The world class, state-of-the-art facilities that are already in place throughout the Principality have the capacity to accommodate the training requirements for more than 30 Olympic sports.

- Monaco has recently opened a high tech Institute of Sports Medicine and Sports Science : ***Institute Monegasque de Medicine du Sport***

- The only building project required to create a complete Olympic Training Centre would be a **Home Base Facility**.

New Home Base Facility

This facility would provide the following services:

- Accommodations for Visiting Athletes
- Dining Hall
- Coordination of Sport Facility Use
- Scheduling of Medical Services
- Academic Training
- Official Training Centre Merchandise Store
- Tours of Monaco Sports/Olympic Museum

Usage of Training Centre

- Elite Level Training Camps
- International Competition Preparation
- Athletes competing in Monaco's International Sporting Events
- Athletes in rehabilitation
- Sports Clinics
- Weekend, Summer or Day Camps for youth

Monaco: A Global Sporting Center

- Monaco has become a major global sporting center, hosting some of the world's most prestigious sporting events in a wide array of disciplines.

- Many Olympians and professional athletes have made Monaco their home or have set up their business in the Principality.

- Monaco has a powerful support system in the area of sports on the National and International level.

An Olympic Legacy...

1920 – The most famous U.S. rower of all time, Jack Kelly, grandfather to HSH Prince Albert II, won gold medals in the men's single and double sculls. In 1924, Kelly repeated his victory in the men's double sculls, taking home his third Olympic gold medal.

1947- John Kelly Jr., Prince Albert's uncle, competed in four Olympic Games. Shortly before competing in the Melbourne Olympics, he promised to bring back a medal as a wedding gift for his sister who was about to marry Prince Rainier. He never said which color the medal would be and true to his word, he delivered to Princess Grace an Olympic bronze medal which had tremendous sentimental value.

...Lives on in Monaco

Prince Albert II has kept the family's Olympic Legacy alive, competing in five Olympic Games in the Bobsleigh. Monaco's Sovereign Prince is President of the Monegasque Olympic Committee and has been an IOC member since 1985.

2012 A new International Olympic Training Centre will open in Monaco
